VISTA-MESH™
SECURITY FENCING

5076

The reverse configuration of our 5076 Vista-Mesh is a superb product for multiple property types. It's an aesthetically pleasing modern fence style that offers an unobstructed view from the inside and outside of the property

Can be installed in conjunction with electric fencing.

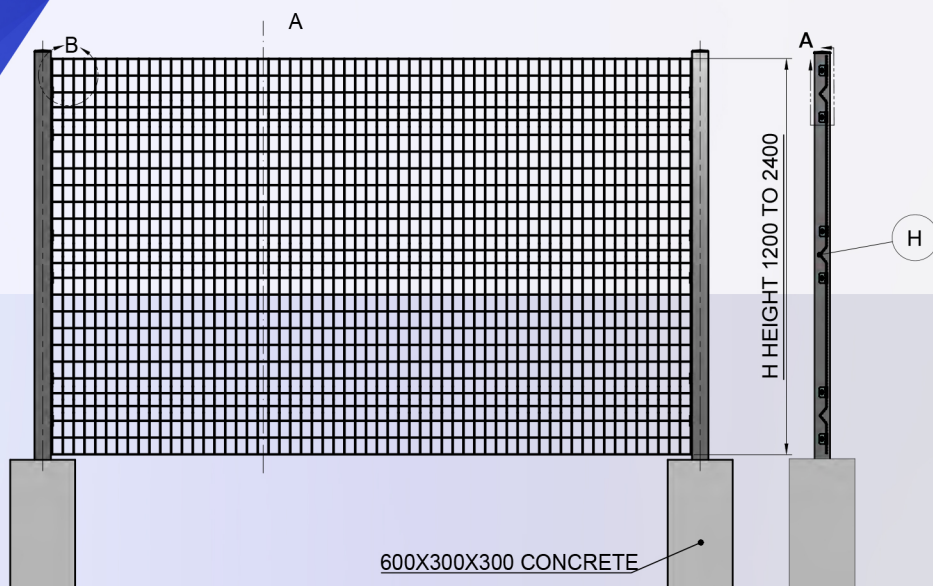

Available either as Pre-Galvanized, Hot Dip Galvanized or Plastic Coated in our fully automated fluidized bed facility, using imported **PLASCOAT®** thermoplastic powder for a long lasting, consistent quality, corrosion resistant, colour finish.

Galvanized

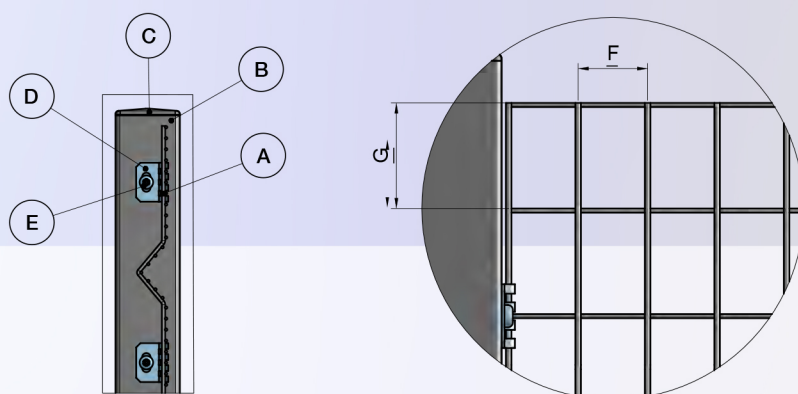

Green - RAL 6005
